

BEAD BREAKERS

Integrated design, Alloy steel claw and chromed piston and ram enhance the strength of overall performance and extends service life

- Durable Anti-Corrosion Environment-Friendly Paint
- Up To 5 Inch Stroke
- Self Retracting

HBB-10000

Works on all single, two and three piece agricultural and small OTR tires/rims, including some newer wheel types.

HBB-10001

Works on 5 piece rims 25" to 51" with pry bar bead loosening pockets.

GLOBAL MINING PRODUCTS
Quality, Service, Value

HYDRAULIC PUMPS

- Can be used with a variety of hydraulic cylinders, presses and hydraulic tools
- Knob ventilation valve improves operation and protection
- Air and Oil Filter reduces the risk of contamination
- Various sizes available with plastic, aluminum or steel oil reservoirs
- Operating air pressure between 87-145 psi.
- Operating pressure up to 10000 psi.
- Internal load limiting device avoids overload

HYDRAULIC RAMS

- High Strength alloy steel for durability and increased safety
- Swivel Saddles available
- High quality internal construction prolongs life
- Heavy-Duty return springs
- High quality quick couplers
